The Management of Myruns Engineering Sports, S.L. establishes

Quality Policy as:

- Priority commitment to customer satisfaction and service and compliance with customer specifications and applicable requirements, including legal and regulatory requirements.
- Commitment **to meet the needs of the Company's stakeholders** and to act respectfully with the environment in our daily activities.
- This Quality Policy is the reference framework for the establishment of quality objectives and encourages the involvement of all Myruns people in the achievement of these objectives. All activities must be performed with quality and safety, with a zero-defect approach, in all processes, following the established procedures, in order to improve performance, minimize risks, optimize costs and increase profitability and, consequently, customer satisfaction, to achieve the expected results.
- This Quality Policy establishes for the Management, in the first instance, and for all Myruns collaborators a commitment to continuous improvement, and encourages to identify the risks associated with non-conforming situations in each and every one of the processes and situations and to establish effective actions that minimize or eliminate their impact, prioritizing prevention and improving the performance of the processes continuously.
- Management's commitment to **provide the necessary resources** so that the Quality Management System can be developed effectively.
- **Collaborate with stakeholders** to continuously improve relationships, and **in particular with suppliers**, in order to obtain raw materials, products and services that meet our expectations and those of our customers.

As a commitment to all of the above, the Management signs the Quality Policy and undertakes to disclose and communicate it to all Myruns members, and to third parties when required.

The Quality Policy will be published and will be available and accessible to all the people that are part of Myruns.

Raúl Martín Managing Director
