

The Management of **Myruns Engineering Sports, S.L.** establishes the following:

Quality Policy:

- The primary commitment to **customer satisfaction and attention**, **complying** with their **specifications** and **applicable requirements**, including legal and regulatory requirements.
- The commitment to **meet the needs of the Company's stakeholders** and to act respectfully towards the environment in our daily activities.
- This Quality Policy serves as the **framework for setting quality objectives** and **encourages the involvement of all personnel at Myruns in achieving these objectives**. All activities must be carried out with quality and safety, with a **zero-defect approach**, across all processes, following established procedures to **improve performance, minimize risks, optimize costs, increase profitability**, and consequently enhance customer satisfaction to achieve the intended results.
- This Quality Policy establishes, for Management primarily, and for all Myruns collaborators, a **commitment to continuous improvement**, encouraging the **identification of risks** associated with non-conforming situations in each and every process, and the **implementation of effective actions** to minimize or eliminate their impact, prioritizing prevention and continuously improving process performance.
- Management is committed to **providing the necessary resources** so that the Quality Management System can operate effectively.
- **Collaborate with stakeholders** to continuously improve relationships, **particularly with suppliers**, with the aim of obtaining raw materials, products, and services that meet our expectations and those of our customers.

As a commitment to all the above, Management signs the Quality Policy and undertakes to disseminate and communicate it to all members of Myruns, and to third parties when required.

The Quality Policy will be published, available, and accessible to all personnel who are part of Myruns.

Raúl Martín
Managing Director
